

Lesson Plan: Climate Change Impacts in Jamaica

As a **High School** or introductory **Undergraduate** teacher, you can use this lesson plan to **introduce climate change and its impacts in Jamaica**.

This lesson plan provides an introduction to climate change, causes and impacts of climate change globally, climate change risk profile for Jamaica that includes climate impacts on major sectors of the country such as agriculture, water resources, human health, coastal resources and infrastructure. This lesson plan also mentions health risks arising from uncertain epidemics due to changing climate.

Thus, the use of this lesson plan allows you to teach Climate Science and Climate Change in your classrooms.

Use this Lesson Plan to help the students to understand and find answers to:

1. What is Climate Change? What are its causes?
2. What are the impacts of climate change on Jamaica?
3. What are the impacts of climate change on agriculture, water resources, human health, coastal resources and infrastructure in Jamaica?
4. What mitigation practices can be adopted to control the impacts of climate change in Jamaica?

About the Lesson Plan

| | |
|---------------------------|--|
| Grade Level | High School, Undergraduate |
| Climate Topic | Climate Change Impacts in Your Country |
| Location | North America, Jamaica |
| Access | Online |
| Language(s) | English |
| Approximate Time Required | 60 mins |

Contents

| | | |
|----|--|--|
| 1. | Reading (15 min) and Video (5-15 min) | A reading from the NASA Global Climate Change website that includes information about what is the scientific evidence for climate change, causes, and impacts of climate change. This can be accessed here . Optional: A set of 7 short video micro-lectures (2-5 minutes in length) on climate change and global warming developed by the National Research Council, The National Academies of Sciences, Engineering, and Medicine. This can be accessed here |
| 2 | Reading 1 (World Bank) | A reading by Climate Change Knowledge Portal of the World Bank that explains climate change and impacts in Jamaica. This can be accessed here . |
| 3 | Reading 2 (USAID) | This reading is the Climate Change Risk Profile fact sheet for Jamaica by Climatelinks: A Global Knowledge Portal for Climate and Development Practitioners USAID. This can be accessed here . |
| 4 | Reading 3 (WHO) | This report by the World Health Organization is a Climate and Health Country Profile for Jamaica. This can be accessed here . |
| 5 | Classroom/Laboratory Activity (15 min) | A classroom/laboratory activity based on a reading and video on Jamaica. This reading and video explains the causes and impacts of Jamaica on Jamaica and also states the possible solutions to counter the crisis. The reading can be accessed here. The video can be accessed here. |

Step-by-step User Guide

(Here is a step-by-step guide to using this lesson plan in the classroom/laboratory. We have suggested these steps as a possible plan of action. You may customize the lesson plan according to your preferences and requirements.)

| | | |
|-----------------|---|---|
| <p>1</p> | <p>Introduce Climate Change through the readings and videos</p> | <p>This reading titled, “The Causes of Climate Change” from the NASA Global Climate Change website, provides introductory information on climate change and global warming. It contains information on the scientific evidence of climate change, its causes and impacts.</p> <p>This can be accessed here.</p> <p>Optional: This set of 7 short video micro-lectures (2-5 minutes in length) have been developed by the National Research Council, The National Academies of Sciences, Engineering, and Medicine. This can be used to provide additional information on climate change.</p> <p>They include:</p> <ol style="list-style-type: none"> 1. What is Climate? Climate Change, Lines of Evidence Chapter 1 2. Is Earth Warming? Climate Change, Lines of Evidence Chapter 2 3. Greenhouse Gasses. Climate Change, Lines of Evidence Chapter 3 4. Increased Emissions. Climate Change, Lines of Evidence Chapter 4 5. How Much Warming? Climate Change, Lines of Evidence Chapter 5 6. Solar Influence. Climate Change, Lines of Evidence Chapter 6 7. Natural Cycles. Climate Change, Lines of Evidence Chapter 7 <p>This video playlist can be accessed here.</p> |
| <p>2</p> | <p>Discuss causes and impacts of Climate Change in Jamaica</p> | <p>Use this interactive website by the Climate Change Knowledge Portal of the World Bank to have your students understand the impacts of Climate Change in Jamaica. This resource includes the following:</p> <ol style="list-style-type: none"> I. Climate Change Overview of Jamaica II. Country Summary III. Current Climatology: Climate Trends and Variability in Temperatures and Precipitation IV. Climate Projections V. Vulnerability of Jamaica to Climate Change <p>Each section contains relevant climate change information including data, projections, and visualizations. The data is visualized through interactive graphs and users can select different indices, model projections, timescales, and sectors to better understand the impacts of climate change in Jamaica.</p> <p>This can be accessed here.</p> |

| | | |
|---|--|---|
| 3 | Further understanding on impacts of Climate Change on key sectors in Jamaica | <p>You may wish to have your students explore climate change and its risks in Jamaica in more detail through a resource from climatelinks: A Global Knowledge Portal for Climate and Development Practitioners of the USAID.</p> <p>This factsheet on climate risks in Jamaica includes information on:</p> <ol style="list-style-type: none"> I. Current and future climate impacts and vulnerabilities II. Climate impacts on key sectors of: <ol style="list-style-type: none"> 1) Agriculture 2) Water Resources 3) Human Health 4) Coastal Resources 5) Infrastructure <p>This can be accessed here.</p> |
| 4 | Discuss impacts of Climate Change on Health, in Jamaica | <p>Use a reading by the World Health Organization (WHO) to stress to your students how climate change can impact human health in Jamaica. This factsheet (8 pages) titled Climate Change and Health: Country Profile: Jamaica includes information on:</p> <ol style="list-style-type: none"> I. Current and Future Climate Hazards II. Current and Future Health Risks due to Climate Change III. Co-benefits to Health from Climate Change Mitigation <p>This resource can be accessed here.</p> |
| 5 | OPTIONAL Classroom/Laboratory Activity on the ‘Lake Chad Crisis’ | <p>You may wish to conduct a {roleplay} activity in your classroom/laboratory to further engage your students in understanding the climate crisis in Jamaica; specifically on the impact of climate change on food security and water security in Jamaica.</p> |

Learning Outcomes:

The tools in this lesson plan will enable students to:

- learn about climate change and global warming
- understand the impacts of climate change in Jamaica
- discuss how changing weather patterns due to climate change could affect Jamaica’s future
- describe the current and future health risks and economic impacts on Jamaica due to climate change

Additional Resources

| | | |
|---|---------|--|
| 1 | Reading | <p>Jamaica Greenhouse Gas Emissions Fact Sheet: This fact sheet by Climatelinks: A Global Knowledge Portal for Climate and Development Practitioners of the USAID, gives information about change in GHG Emissions in Guatemala (1990-2013), GHG Emissions Relative to GDP and Mitigation Targets.</p> |
|---|---------|--|

| | | |
|---|---------|---|
| 2 | Reading | Intended Nationally Determined Contribution, Jamaica : This report provided by UNFCCC is a submission of commitment towards mitigating Climate Change by Jamaica. |
|---|---------|---|
