

Lesson Plan: Climate Change Impacts in Mauritius

As a **High School** or introductory **Undergraduate** teacher, you can use this lesson plan to **introduce climate change and its impacts in Mauritius**.

This lesson plan provides an introduction to climate change, causes and impacts of climate change globally, climate change risk profile for Mauritius that includes climate impacts on major sectors of the country such as agriculture, water resources, human health, industries and tourism. This lesson plan also mentions health risks arising from uncertain epidemics due to changing climate.

Thus, the use of this lesson plan allows you to teach Climate Science and Climate Change in your classrooms.

Use this Lesson Plan to help the students to understand and find answers to:

1. What is Climate Change? What are its causes?
2. What are the impacts of climate change on Mauritius?
3. What are the impacts of climate change on agriculture, water resources, human health, industries and tourism?
4. What mitigation practices can be adopted to control the impacts of climate change in Mauritius?

About the Lesson Plan

Grade Level	High School, Undergraduate
Climate Topic	Climate Change Impacts in Your Country
Location	Asia, Mauritius
Access	Online
Language(s)	English
Approximate Time Required	60 mins

Contents

1.	Reading (15 min) and Video (5-15 min)	<p>A reading from the NASA Global Climate Change website that includes information about what is the scientific evidence for climate change, causes, and impacts of climate change. This can be accessed here.</p> <p>Optional: A set of 7 short video micro-lectures (2-5 minutes in length) on climate change and global warming developed by the National Research Council, The National Academies of Sciences, Engineering, and Medicine. This can be accessed here</p>
2.	Reading 1 (World Bank)	<p>A reading by Climate Change Knowledge Portal of the World Bank that explains climate change and impacts in Mauritius.</p> <p>This can be accessed here.</p>
3	Reading 2 (WHO)	<p>This report by the World Health Organization is a Climate and Health Country Profile for Mauritius.</p> <p>This can be accessed here.</p>
4	Classroom/Laboratory Activity (15 min)	<p>A classroom/laboratory activity based on a reading and video on Mauritius. This reading and video explains the causes and impacts of Mauritius on Mauritius and also states the possible solutions to counter the crisis.</p> <p>The reading can be accessed here. The video can be accessed here.</p>

Step-by-step User Guide

(Here is a step-by-step guide to using this lesson plan in the classroom/laboratory. We have suggested these steps as a possible plan of action. You may customize the lesson plan according to your preferences and requirements.)

1	Introduce Climate Change through the readings and videos	<p>This reading titled, “The Causes of Climate Change” from the NASA Global Climate Change website, provides introductory information on climate change and global warming. It contains information on the scientific evidence of climate change, its causes and impacts.</p> <p>This can be accessed here.</p> <p>Optional: This set of 7 short video micro-lectures (2-5 minutes in length) have been developed by the National Research Council, The National Academies of Sciences, Engineering, and Medicine. This can be used to provide additional information on climate change.</p> <p>They include:</p> <ol style="list-style-type: none"> 1. What is Climate? Climate Change, Lines of Evidence Chapter 1 2. Is Earth Warming? Climate Change, Lines of Evidence Chapter 2 3. Greenhouse Gasses. Climate Change, Lines of Evidence Chapter 3 4. Increased Emissions. Climate Change, Lines of Evidence Chapter 4 5. How Much Warming? Climate Change, Lines of Evidence Chapter 5 6. Solar Influence. Climate Change, Lines of Evidence Chapter 6 7. Natural Cycles. Climate Change, Lines of Evidence Chapter 7 <p>This video playlist can be accessed here.</p>
---	--	---

2	Discuss causes and impacts of Climate Change in Mauritius	<p>Use this interactive website by the Climate Change Knowledge Portal of the World Bank to have your students understand the impacts of Climate Change in Mauritius. This resource includes the following:</p> <ol style="list-style-type: none"> I. Climate Change Overview of Mauritius II. Country Summary III. Current Climatology: Climate Trends and Variability in Temperatures and Precipitation IV. Climate Projections V. Vulnerability of Mauritius to Climate Change <p>Each section contains relevant climate change information including data, projections, and visualizations. The data is visualized through interactive graphs and users can select different indices, model projections, timescales, and sectors to better understand the impacts of climate change in Mauritius.</p> <p>This can be accessed here.</p>
3	Discuss impacts of Climate Change on Health, in Mauritius	<p>Use a reading by the World Health Organization (WHO) to stress to your students how climate change can impact human health in Mauritius. This factsheet (8 pages) titled Climate Change and Health: Country Profile: Mauritius includes information on:</p> <ol style="list-style-type: none"> I. Current and Future Climate Hazards II. Current and Future Health Risks due to Climate Change III. Co-benefits to Health from Climate Change Mitigation <p>This resource can be accessed here.</p>
4	OPTIONAL Classroom/Laboratory Activity on the ‘Lake Chad Crisis’	<p>You may wish to conduct a {roleplay} activity in your classroom/laboratory to further engage your students in understanding the climate crisis in Mauritius; specifically on the impact of climate change on food security and water security in Mauritius.</p>

Learning Outcomes:

The tools in this lesson plan will enable students to:

- learn about climate change and global warming
- understand the impacts of climate change in Mauritius
- discuss how changing weather patterns due to climate change could affect Mauritius’s future
- describe the current and future health risks and economic impacts on Mauritius due to climate change

Additional Resources

1	Reading	<p>Intended Nationally Determined Contribution, Mauritius: This report provided by UNFCCC is a submission of commitment towards mitigating Climate Change by Mauritius.</p>
