

TROP ICSU WORKSHOP IN AUSTRALIA IN FEB 2020

TROP ICSU

A TROP ICSU Lesson Plan Development Workshop was conducted at the Australian Meteorological and Oceanographic Society's next national conference in Fremantle, Western Australia on 14 February 2020. This workshop was convened by our collaborators at the ARC Centre of Excellence for Climate Extremes, UNSW Sydney, University of Melbourne, and the Monash Climate Change Communication Hub. The main focus of the event was the development of lesson plans for the Australian curriculum. A detailed report is available [here](#).
